

# Payment Solutions for All Business Types

## Healthcare

Our solutions, developed specifically for the healthcare marketplace, allow practices to efficiently accept and collect payments and provide consistent cash flow for their office.

## Retail

We allow business owners to take payments from anywhere – a store front, online, over the phone, from home, on location or wherever your customers are.

## Hospitality/Lodging

With solutions such as wireless smart terminals with EMV technology and dynamic currency conversion, you can focus on keeping your guests happy while we focus on payments.

## Restaurant

We serve up solutions for a wide variety of restaurant types from food trucks to multi-franchise locations. Restaurants can choose from wireless smart terminals that offer pay at the table and tipping, tablet based payment options, solutions for online ordering, and mobile payment solutions.

## E-Commerce

Whether you need a simple hosted payment page or a completely customized experience, our e-commerce solutions make it easy for businesses to accept all payment types in a card present or card not present environment.

## Professional Services

Our Omni-commerce solutions are perfect for service professionals. They provide flexibility for your business needs by allowing you to accept payments online, in-person, over the phone, or on-the-go.
