

Accept donations anywhere

Converge® helps non-profit organizations achieve donation goals and streamline fundraising efforts by accepting monetary donations anywhere they take place. Accept everything from debit and credit cards to PayPal™, electronic checks, and digital wallets. Manage and track campaign donation activity easily and securely from anywhere with any browser-connected device. Use Converge's friendly online portal or integrate our technology with your websites, accounting and CRM systems via easy-to-use developer tools.

Converge all-in-one commerce solution

In-person

Connect an EMV payment device to take donations via swipe, dip or tap.

Online

Accept donations on your website via a buy button, hosted payment page or integrated shopping cart.

In an app

Support donations made through digital wallets like PayPal™ and Apple Pay on your website or mobile app.

Over the phone

Use any browser-connected device to enter card details for mail and phone donations.

In the office

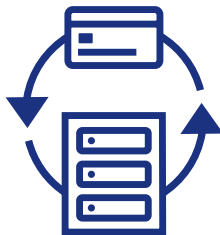

Manage sponsors and members, set up recurring donations, and email electronic invoices.

Streamline electronic donations

Save time, improve cash flow, and control processing costs with built-in productivity boosters. Customize "Donate Now" buttons, payment pages and invoices with your brand to improve the customer experience.

- **Card on file:** Securely store donor profiles and card details for collecting repeat, recurring and subscription donations.
- **Remote billing and invoicing:** Email invoices to donors, members, sponsors and vendors and allow them to pay online with a simple click.
- **Credit card surcharge:** Offset costs with our card brand-compliant program that allows you to pass acceptance costs to donors.
- **Product catalog:** Speed checkout and reduce staff keying errors by setting up a list of donation levels and merchandise including prices and descriptions.
- **Field-level donations:** Connect a card reader to a tablet or use a portable payment terminal to accept in-person payments and donations at events and fundraisers.
- **Reporting:** Easily track a campaign's performance and export data to accounting and management systems.
- **Administrative tools:** Add staff and volunteers and assign roles based on access rights.

Gain peace of mind

Protect payment data, reduce fraud, and simplify PCI DSS compliance validation with advanced security technologies.

- Encryption
- Tokenization
- Online cardholder authentication
- Integrated fraud prevention
